C4

The App

The App allows control of one, a group of lamps, or all lamps at once, various lighting modes of operation, or the ability to turn lamps on or off individually.

The mobile app requires bluetooth and works on both Android and iOS devices.

Tech support for the lights and app is available on the website.

D7

Product Information

The innovative design concept allows a hand full of lights to be moved between different bases to create various levels of light.

The Participation Designs light series includes the C4, B8, and D7 bases and light sticks.

- Patent and Copyright protected
- Wirelessly control up to 250 lamps through bluetooth
- iOS/Android mobile app can manage multiple rooms or sites
- Week long battery life
- Micro USB charging
- Water-resistant base- for indoor/outdoor use

The Lights

These lights make a perfect solution for catering, hospitality, conferences, or special events as well as the home setting. The lights are patent and copyright protected.
